

Núria Badia Comas

UX Lead & AI Product Design Strategist

(+49) 170 440 7769 · hello@nuriabadia.com · nuriabadia.com · linkedin.com/in/nuria-badia-comas-325a727 · Munich

Summary

I am a UX Lead, AI product design strategist and certified Workshop Facilitator. I lead UX for digital products and build the practice behind them — from the first design system to a team that runs its own research.

Today that means leading UX for an AI study companion, defining strategy, principles and KPIs that drive adoption, usability and learning outcomes at scale.

Alongside my industry work, I teach Human–Computer Interaction at Universitat Oberta de Catalunya, write about AI product design (LinkedIn newsletter) and decision-making frameworks, lead a UX book club, and mentor designers.

Expertise

UX for AI: Framing use cases from the user’s question, not the model · Agentic & RAG-based workflows, conversational design · Digital twins: modelling what data the AI needs · AI evaluation & testing (RITE, LangSmith, GrowthBook)

UX Strategy & Standards: UX principles & frameworks · KPI trees · Opportunities into roadmap priorities · Management reporting · Cross-functional collaboration · Design operations · AI enablement

User Journeys & Discovery: End-to-end journey design · Service design, journey mapping & journey management · Discovery · Workshops & design sprints

Research & Analytics: User research (continuous discovery) & usability testing · A/B testing · Data-informed design decisions · AI-assisted research

UX & UI Design: Information architecture · Design systems · (Rapid-)prototyping & interaction design · AI-assisted prototyping · Accessibility (WCAG)

Tools: Figma · FigJam · Claude · Cursor · VS Code · Lovable · GitHub · GitLab · Storybook · LangSmith · GrowthBook · TheyDo · Miro · Amplitude · Google Analytics · Contentsquare · Mouseflow · ProductFruits · Qualtrics · Jira · Confluence

Experience

UX Lead in Syntea Learning & Tutoring (AI Product)

IU International University of Applied Sciences · July 2025 – Present · Munich

Set the UX strategy, principles and KPIs for Syntea, IU’s AI study companion for 80,000+ students (Gold, QS Reimagine Education 2025). I turn complex AI interactions into simple, reusable patterns and improve adoption, retention and satisfaction step by step.

Built continuous discovery for Syntea and connected the user journey to opportunities and roadmap priorities. AI runs through how I work, from research and concepts to working prototypes and frontend code on GitHub. I also set up AI workflows and skills for the team.

UX Lead in the Learning Domain

IU International University of Applied Sciences · June 2023 – June 2025 · Munich

Led UX strategy and standards for IU’s learning platform (100,000+ students): principles, roadmap priorities and KPIs for usability, accessibility and adoption on web and mobile.

This included myCampus 2.0, bringing three grown systems together into one. I also built continuous discovery from zero across several teams: trained colleagues, set up shared user journeys and got teams deciding based on user insights.

Teamlead UX / UI Design On Campus

IU International University of Applied Sciences · June 2022 – May 2023 · Munich

Led a team of three designers and owned UX standards and design-system coherence across the pre-sales websites, the application portal and partner platforms. This included the self-service portal that HR managers at 10,000+ partner companies use with IU’s operations teams, which replaced a manual, email-based process.

Built the career path and design-maturity model the team grew with, including how to measure it.

Lead UI / UX Designer

IU International University of Applied Sciences · December 2020 – May 2022 · Munich

Functional lead for eight designers and the main UX contact across the organisation. Built the company’s UI Library and owned its governance.

Modernised IU’s grown web platforms from the inside, designing directly in their front-end system (Tailwind) instead of rebuilding them.

Senior UI / UX Designer

IU International University of Applied Sciences · October 2019 – November 2020 · Munich

Improved UX across several websites (information architecture, visual hierarchy, user journeys), validated with A/B tests, surveys and analytics. Helped set up the company's first UI Library with Product and Engineering.

Senior Manager Screen Design

Sky Deutschland GmbH · March 2017 – September 2019 · Greater Munich Metropolitan Area

Designed and shipped websites, microsites, apps and newsletters, keeping the brand consistent with marketing and editorial. Refreshed existing sites with engineering, specifying new components that fit what was already live.

Manager Screen Design

Sky Deutschland GmbH · March 2014 – February 2017 · Greater Munich Metropolitan Area

Designed digital experiences for websites, apps, social media and campaigns, working closely with marketing and editorial.

Designer (UI / UX / Graphic Design)

Freelance · August 2008 – December 2014

Digital and print work for clients including Audi, Praktikawelten, Canto, Vorwerk, Groh, Bulthaup and DocuWare, across the social, tourism, IT and electronics sectors.

Web and Print Designer and Developer

Jenomics GmbH · July 2007 – July 2008 · Munich

Customer service and consulting in corporate design for clients including Giesecke+Devrient; print and online media solutions and Flash animations.

Web Designer and Multimedia Specialist

Sanafir new media & online AG · July 2005 – March 2007 · Munich

Print and digital communication for clients such as BMW, EADS and Bayern International, including 2D animation and 3D visualisation, working with the Art Director.

Web Designer

3Kon GmbH – Informationstechnologie · October 2002 – June 2005 · Jena

Designed and built websites with Typo3 (HTML/CSS templates, TypoScript), Flash and XML, and trained clients and colleagues.

Teaching

Affiliated teaching staff

Universitat Oberta de Catalunya · September 2025 – Present · remote

Teaching Human-Computer Interaction in UOC's Bachelor's in Computer Science (a fully online university in Barcelona): online teaching, continuous assessment and academic mentoring.

Education

Graduate in Multimedia (Design specialisation) — Universitat Oberta de Catalunya · 2009

Graduate in Audiovisual Communication (Multimedia) — Universitat Pompeu Fabra · 2002

Masterclass in Art Direction · 2008

Exchange programmes — Bauhaus-Universität Weimar (Media Design) · Roskilde University (Communication)

Additional training in accessibility, emotional intelligence, communication, psychology for UX, conversion-oriented design, and project management through IxDF, Smashing Conference, edX, and Sky Academy.

Certifications (selection)

UX for AI — Greg Nudelman · 2026

Workshopper Master — AJ&Smart · 2025

The Contribution Method Masterclass — We and Me · 2025

Get Ahead in Product Design with AI · AI for Design Systems · AI for Designers · Conversational Design — Interaction Design Foundation · 2025

How to Measure UX and Design Impact — PUSH UX Conference · 2024

Becoming a UX Strategist — Nielsen Norman Group · 2023

Agile Leadership Training — Proaktiv Management GmbH · 2022
